All Turbo Technics turbochargers are built to the very highest standards possible, and thoroughly tested using our own "VSR" high-speed core balancing system. VSR eliminates imbalance and vibration from the rotating assembly at speeds exceeding 250,000 RPM, ensuring 100% quality control, and a long turbocharger life.

Your turbo is in safe hands with Turbo Technics.

PRICES are in GBP. VAT is not included, and will be charged at the current rate.

CARRIAGE - Turbochargers are delivered FREE (next working day) within the UK mainland.

WARRANTY is given on all turbochargers for TWO years from the date of purchase, with a maximum service limit of 24,000 miles. Repaired turbochargers carry a ONE year warranty, limited to the parts supplied and workmanship involved in the repair. Full details are supplied with all turbochargers.

A SURCHARGE of £250 is applied to your account until the old unit is returned complete. It must be the same part number as the unit supplied, and must not have suffered accident damage.

PAYMENT - Unless a credit account exists, all goods must be paid for in full before dispatch. Payment by all major credit and debit cards is accepted, together with cleared cheques and direct bank transfers.
